

*"This is one of the BEST professional development programs I've ever attended. It was engaging and relevant, and I am confident about going back to class and implementing the content effectively."*

US-based STEAM Teacher

# LEGO® Education Professional Development

A personalized learning program that inspires teachers to learn, practice and master competencies to facilitate playful, hands-on STEAM learning.

Engage actively in this experiential, personalized professional learning program designed to produce a strong set of transferrable instructional skills and strategies. A selection of self-guided and facilitated learning is offered virtually and on-site.

## Competency-based framework

The program is founded on a competency-based framework that is rooted in four core competency categories: Pedagogy, STEAM Concepts, 21st Century Skills and Classroom Management. These critical competencies enable teachers to facilitate and fully realize the learning promises in every LEGO® Education solution to drive student learning outcomes.

## Self-guided Learning

Free online on-demand and self-guided learning that targets individual needs and learning preferences. Get access anywhere and anytime to:

- Interactive competency-based modules
- Product video tutorials
- LEGO Education learning philosophy

**Learn more: [LEGOeducation.com/PD](https://LEGOeducation.com/PD)**

## Facilitated Learning

Facilitated learning provides full-day product training courses led by a certified LEGO Education trainer. These virtual or on-site courses are engaging learning experiences that build the confidence to facilitate hands-on, playful STEAM learning using LEGO Education products.

- Hands-on product training courses
- A more extensive and interactive alternative to online self-guided product training

## About LEGO® Education

LEGO® Education offers a range of playful, hands-on STEAM learning experiences based on the LEGO® system of bricks – that meets students wherever they are in their learning journey, regardless of their ability. From the Early Learning portfolio to the LEGO® Learning System, our solutions create an environment where active, collaborative learners future-proof their skills and spark a lifelong love of learning whether it's in-person, virtual or a mix of both.
